

Construction Equipment Management Program. September 2010

A four day management development program for equipment managers in construction and mining

What is the Construction Equipment Management Program

CEMP is an intensive, executive level residential program designed for equipment and fleet managers who seek, tools techniques and ideas to improve fleet management and increase return on investment. It builds the confidence and creativity needed for innovation and change.

What will you learn

How to

- Organize your business to maximize the value of your equipment assets.
- Make internal rental rates work and maintain alignment
- Estimate owning and operating costs.
- Define economic life and develop a long term fleet replacement strategy.
- Manage and measure the performance of maintenance and repair operations.
- Define and implement maintenance procedures that extend component life and lower cost.

Who should attend

Equipment managers, owners, operations personnel and administrative personnel responsible for significant investments in equipment.

OEM, dealer and supplier representatives responsible for end user and customer relationships.

Who are the instructors

Mike Vorster. Author of Construction Equipment Economics. Member of the National Academy of Construction with more than 25 years of experience in the field. Academic advisor to ACEM and consultant to numerous companies.

Andy Agoos. Charter member and former president of the Association of Construction Equipment Managers and 20 year AEMP member. Over 40 years experience in executive equipment management positions.

What will you earn

Successful completion will enable eligible members of AEMP to earn 15 CEUs

When will it be held

From noon on Monday September 20, 2010
To noon on Thursday September 23, 2010.

Where will it be held

Georgia Tech Hotel and Conference Center
800 Spring Street, NW Atlanta GA 30308

How much will it cost

The all inclusive fee for the course is \$3,200. This covers tuition and materials as well as meals and accommodation for the three day duration of the course. Discounts for multiple registrations from one company are available: contact Mary Duncan.
